

Setting up Peanut Personal Notes (KG6LIN)

Last update: May 7, 2019

Install Peanut for Ham Radio from Android APP Store

Make sure you have DMR ID (apply at www.RadioID.net)

I used my DMR ID instead of D-Star (I didn't know how to register for D-Star)

Get a Peanut Code (apply at <http://www.pa7lim.nl/peanut-request/>)

Open the Peanut App and got through the Setup

The start talking. Should work.

Can be installed on Windows (Version 7 and up)

<https://software.pa7lim.nl/peanut/STABLE/>

Install Peanut-v2.0.7.msi.zip 2019-04-08 21:52 1.4M

"The Peanut" directory.

<http://www.xrefl.net/> (XRF Reflectors - through Peanut)

<http://peanut.pa7lim.nl/rooms.html> Great list of Peanut connections
